

LOCAL MATTERS.

WEATHER PROBABILITIES. Aug. 2, 1882.—For the Middle Atlantic States rain, followed by partly cloudy and slightly warmer weather, wind shifting to southeast and southwest, lower barometer.

S. C. NEALE, who is under indictment in the U. S. Circuit Court for the Eastern District of Virginia, for a violation of the U. S. Banking laws, passed through this city yesterday evening en-route for Richmond, in charge of the Marshal of Colorado. He stopped in Washington for an hour or two, and was seen and conversed with by several persons. He has been profitably employed during his sojourn in Denver and anticipates a return to that city if acquitted of the charge, of which he seems quite confident. When arrested he made no demur, but at once responded to the indictment and with the Marshal started for Richmond where he arrived last night. He will be taken before Commissioner Atkins today, probably, and his bail fixed at \$5,000 or less, when a bond will be given with Mr. D. A. Windsor of this city and others as sureties, and he will then be liberated. Neale expresses himself as very anxious for a speedy trial, but as it is not likely there will be a special term of Judge Hughes' Court and as there will be no regular term before September, after being released he will at once return to Denver, there to await the order of the court. Since his absence, now six months, he has slightly changed in appearance, being somewhat fuller in the face, and wears a more settled expression. He expects to depart for his conduct and conduct him on his way, leaving his home in the city, and is his determination to remain in the city where he has used. On his arrival in Washington he was met by his sister, sister-in-law, and an inmate of the Levee House, and the meeting was as may be expected, very affecting. He will probably leave on his return to Denver on Thursday of Friday.

POLICE NEWS. The Mayor had before him this morning James McDaniels, colored, arrested yesterday by Officer James Smith on suspicion of being Thornton Carter, who escaped from the Orange county jail on the night of July 25th, and for whom Sheriff Hackett of that county has offered a reward of \$200. Also ten parties, among them some well-known citizens, charged with cutting and maintaining nuisances on their premises.

James McDaniels, who answers to the description of Thornton Carter in many particulars, being very dark, five feet nine inches high, with high cheek bones, and wide space between the eyes, after a long examination was released, he having given a connected account of himself since he left his home at Broad Run, Fauquier county.

The parties charged with maintaining nuisances on their premises were discharged upon the payment of the costs, fifty cents, for the service of notices upon them, with orders to have the nuisances complained of abated within twenty-four hours. The work of ferreting out nuisances is being prosecuted with vigor by the police authorities, and it is understood that a number of parties will be summoned to show cause why they should not be fined for allowing grass to grow in the streets in front of their property.

A warrant has been issued for the arrest of a colored girl named Martha Bonnell for beating severely a small colored child last night for giving her some impudence.

THE WORK OF FILLING UP NORTH ROYAL STREET LATE COMMENCED.—Superintendent of Police Coleman yesterday, according to the resolution adopted at the last meeting of the City Council, the owners paying no attention to the notices served upon them by the Mayor, commenced filling up the lot on North Royal street, the condition of which has been so much complained of by the residents of the neighborhood. The bills for the work will be made out against the several owners of the lot and placed in the hands of the tax collector for collection. The owners will refuse to pay the bills, and then will come a suit by the Corporation to compel payment. In this suit the right of the city to order improvements on streets unpaved and without grade, and compel the owners of property on the same to pay for them, will be tested. The owners of the lot in question say that in consequence of the city not furnishing a proper drainage all the water, &c., from the surrounding property empties into their lot, and they will not pay for the work unless ordered by Court; that the lot has never sunk or been dug out, but that it is in the same condition now that it was forty years ago, except that the outlet for the water has been filled up by the city.

WHARF IMPROVEMENTS.—In addition to the many improvements that have been recently made on the river front, such as repairing old wharves, building new ones, dredging docks, &c., Mr. John Lannon, the agent for the steamer Mattano, has commenced building a new wharf, on the north side of the Potomac Ferry landing, for the above named steamer, to extend out as far as the law allows. The piles have nearly all been driven by Capt. Rodgers, and several cargoes of timber for the work have arrived here over the Va. Midland Railway during the past few days. Any one who has not walked around the river front for some months would be surprised at the improvements that have been made within that time, involving thousands of dollars. Besides the improvements that can be readily seen, many of the docks have been dug out at a heavy cost to the parties controlling them. Messrs. Wm. A. Smith & Co. expect shortly to have the dredging machine at work in their dock to give them a greater depth of water to accommodate their shipping business.

ARREST OF SUSPECTED CRIMINALS.—Wm. Williams, a burly negro, was arrested in this city yesterday by officer Franks, on suspicion of being the rag picker, who committed the outrageous assault on Nellie Morris, in Washington a few days ago. Lieutenant Amanda Austin, of the Metropolitan police force, arrived here late in the evening to identify the man as the criminal, but failing to do so he was discharged. Williams stated he was from Washington.

Yesterday afternoon officer James Smith arrested a negro, supposed to have escaped from the Orange county jail, in which he was confined, awaiting trial for the crime of rape. The man who is still held for identification by the Orange county authorities, gives his name as James McDaniels, and says he is from Broad Run, Fauquier county. He declares that he is innocent of any crime.

RIVER SPORTS.—Every afternoon the river presents an animated scene. The members of the old Dominion Boat Club, in their shells and handsome boats, make a fine appearance, besides a large number of other sail and row boats assist in attracting large crowds to the different wharves. A few evenings since an interesting race took place between two sail boats. The Wash-me-Josh, Capt. Howard Davis, started from Jones' Point to catch the Lucy, sailed by Bradshaw and owned by Mr. Wm. P. Graves, which

was near Shepherd's. The Wash-me-Josh, succeeded in catching the Lucy before she reached the Half-way Tree, and on the return trip Josh again beat Lucy badly. The yacht Amerius also met with a match in an ugly old Bay schooner. The Amerius drew up alongside the Bay vessel, when the latter spread her sails and left the yacht in the rear.

HEAVY SHIPMENT OF PEACHES FROM THE SOUTH.—The shipment of peaches from the South over the Virginia Midland Railway for the northern markets has been very heavy during the past few weeks, showing that the crop is one of the best both in quality and quantity for years. There has been an average daily shipment of 30,000 pounds per day since the commencement of the season, which is considered remarkable for this time of the year. Very few good peaches have reached this market thus far, and the prices for those that have arrived, notwithstanding their inferior quality, have been high.

POLITICAL.—A convention of colored republicans and readjusters was held at the colored Old Fellows' Hall last night for the purpose of electing an executive committee for the ensuing year. After a stormy time, and usual, the following committee was elected: J. McK. Ware, chairman; Geo. Preston, Augustus Ramsey, Henry Johnson, Jacob Banks, H. King, C. A. Jackson, Newton Faut and Richard Lyles.

A coalition meeting will be held at Johnson's Hall, in the county, to night to elect delegates to the readjuster congressional convention to assemble in this city on the 17th instant.

PERSONAL.—Dr. E. H. Marsteller, Past Assistant Surgeon U. S. N., will leave South harbor about the last of the week of the U. S. steamer Hartford for Callao. The Hartford is to be the flag ship of the South Pacific squadron, and the Doctor writes she is now the pride of the American navy, having been thoroughly overhauled, &c. The many friends of Dr. M. in this city wish him a bon voyage.

DISABLED STEAM TUG.—The steam tug Tempair, which towed the new schooner Ellwood Harlow around to Baltimore, in docking the schooner at that port broke her wheel, and arrived here this morning in a disabled condition. She went to the shipyard of J. P. Agnew & Co., where the necessary repairs will be made by Mr. Cathcart.
